Expand the program to engage and empower community leaders in tech.

Strong Ecosystem

Foster a supportive network that encourages innovation and collaboration in tech.

Enhance Community Engagement

Organize events that promote networking, learning, and sharing among participants.

Brand & Visibility Goals

Online Presence

Launch a comprehensive website and social media platforms.

Content Sharing

Share weekly insights, project showcases, and success stories online, including YouTube

Educational Events

Host webinars and an annual virtual conference for engagement.

Community Engagement

Foster community relationships through interactive online and offline initiatives.

Brand Reputation

Aim for a visible, credible, and respected brand in the industry.

Q1 (Jan – Mar) Execution Plan

①

Mission

Finalize mission and vision statements and niche for clarity

②

Website

Annalise website and establish social media presence

③

Curriculum

Design curriculum and certification programs for students

④

Team

Recruit intern into core team members and mentors for growth

Q2(Apr – Jun): Training & Deployments

1

Launch Cohort

Begin first student training cohort this quarter

2

Start Projects

Initiate client projects to deliver real solutions

3

Publish Content

Release blogs to share insights and expertise

4

Partner Schools

Establish partnerships with local schools and organizations

Q3 (Jul – Sep): Execution Plan

①

Scale Cohorts

Increase student enrollment across all programs.

②

Build Products

Develop and launch flagship internal software solutions.

③

Organize Hackathons

Host events to foster innovation and teamwork.

④

Expand Network

Grow partnerships with industry and educational institutions.

Q4 Execution Plan

1

Annual Report

Release the annual impact report for stakeholders.

2

Tech Summit

Host the Tech Summit to showcase achievements.

3

Performance Evaluation

Evaluate overall performance and gather feedback.

4

Expansion Planning

Plan strategies for expansion into 2027.

Key Metrics

01

Students
Trained

Targeting over
1,000 trained
students

02

Projects
Delivered

Completing 10 to 15
client projects

03

Internal
Products

Developing 3
flagship internal
products

1

Pan-African Institute

Establishing a **Pan-African AI Institute** will enable collaboration and research across the continent, fostering talent development and innovation to tackle local challenges through advanced technology solutions.

2

Policy Influence

Engi-Tech aims to **influence policy and digital transformation** in Africa, working closely with governments and organizations to create a supportive environment for technology adoption and growth.

3

Research Center

The launch of **Labs and Research Centers** will facilitate cutting-edge research in AI and engineering, driving technological advancements and creating opportunities for local startups to thrive.

4

Startup Support

Engi-Tech is committed to **supporting African startups** by providing mentorship, resources, and networking opportunities, fostering entrepreneurship and sustainable growth in the technology sector across the continent.

Leading technology for a better future

– Engi-Tech 2026
